

ES-2J

The ES-2J and Cobra ionising air guns have a rugged design and are therefore ideal for use in industrial applications. Ionising air guns neutralise static charges on several materials and clean the surface using ionised compressed air.

Thanks to its rugged design this gun is ideal for heavy-duty industrial applications. This gun is shockless, the emitter pin is coupled capacitively to the high voltage. The airflow is controlled by the trigger. It comes standard with 3 metres of metal-shielded cable.

Features

- Robust metal housing

Technical specifications

Working distance	300 mm max.
Housing material	aluminum
Emitter pin	special alloy
Cable	metal shielded 3,6 or 9 m
Weight	1 kg incl. 3 m cable
Ambient temperature	0- 60 °C
Use circumstances	Industrial
Operating voltage	7 kV AC
Noise level	78 dB using 2 bar at 0,6 m
Air consumption	275 l/min. using 2 bar
Max. pressure	7 bar
Airconnection	1/4" BSP with 8 mm hose connection
Suitable power unit	A2A7S/ MPM
